## SUMMARY

Computer Engineer graduated from Cyprus International University, with 1+ year of experience building production-grade web applications and SaaS platforms. Working as a Full Stack Engineer, independently owning web projects end-to-end while collaborating with the engineering team on planning and developing SaaS applications. Leverages Claude AI and GitHub Copilot for development assessment and velocity. Passionate about clean code, great UX, and shipping things that actually perform well.

## EXPERIENCE

### IzTechValley

Jul 2025 – Present

Full Stack Engineer · Full-Time

Independently own and build full-stack websites end-to-end — from architecture to deployment. Collaborate with the engineering team on planning and developing SaaS applications, contributing to frontend architecture and system design. Build responsive UIs, integrate RESTful APIs, and maintain code quality through modern tooling and enforced Git workflows.

### Gigabyte Ltd · Nicosia, Cyprus

Feb 2025 – Jul 2025

Hardware Engineer · Full-Time

Configured POS environments including hardware setup, OS installation, and network integration. Diagnosed and resolved hardware/software issues to ensure minimal downtime across client sites.

### Gigabyte Ltd · Nicosia, Cyprus

Jun 2024 – Oct 2024

Flutter Frontend Developer · Internship

Built cross-platform mobile UIs with Flutter and Dart, integrating APIs across Android and iOS. Delivered responsive mobile interfaces and collaborated with the team on UI troubleshooting.

## PROJECTS

### Shelfie — Full Stack Web Application

[shelfie-book.vercel.app](#)

Social reading app to track books and discover what others are reading. Built solo — UI/UX, frontend, and backend via Payload CMS. Features: book tracking, star ratings, threaded comments, JWT auth, and dark mode.

React · TypeScript · Payload CMS · PostgreSQL · Tailwind CSS · TanStack · Zod · Motion · Three.js · GSAP

### DevBoard — Frontend Web Application

[mt-devboard.vercel.app](#)

Kanban-style task manager with drag-and-drop boards, due dates, priority levels, and dark mode. Built solo — UI/UX, frontend, and deployment.

React · TypeScript · Tailwind CSS · TanStack · Zustand · Zod · Motion

### Portfolio — Personal Website

[mohammed-tamimi.vercel.app](#)

Personal portfolio showcasing projects, skills, and experience. Built with a focus on performance, clean design, and smooth animations.

React · TypeScript · Tailwind CSS · Motion · Vite
